Skills

Adaptability	Expert	JavaScript	Medium
Fast Learner	Expert	Python Programming	Skillful
Teamwork	Expert	Optimization	Skillful

Languages

English	Native Speaker	Portuguese	Advanced
Spanish	Native Speaker		

Extra – Curricular Activities

Feb 2022 – April 2023

E-Commerce store

I took on the challenge of creating Rous from scratch, honing my skills in web development, design, and e-commerce., selling all sort of items, from a wide range of shakers to valentine's day themed teddy bears, built the store with Shopify, marketed with TikTok Ads, and processed payments with Mercado Pago.

Feb 2018 – Nov 2021

DiscordBOT with Scraper/API's

I created a discord bot that has different methods, one of them uses a website scraper that scrapes my university course page and sends a message containing relevant information about the course including: free spots, the used spots, the NRC, the course name, the professor etc.

July 2023 - Current

Personal Data Chatbot Website

I created a website with flask, JavaScript, Python and tailwind CSS and ran it on replit, it's a website where you can insert a pdf and you can ask questions about the pdf, currently optimizing the master prompt. Try it at "https://chatpdf.sebastianescud3.repl.co/"
